Applied Information is a leading developer of connected, intelligent transportation system (ITS) solutions designed to improve safety, reliability and mobility.

B&B Roadway is the market leader in the managed lane industry.

Artificial Intelligent Analytics for Intelligent Transportation Systems.

PedSafety provides products that allow pedestrian access at intersections and public areas.

Carmanah is a leading manufacturer of compliant solar and AC-powered systems for traffic safety

<https://comtrol.com>

For more than 35 years Pepperl+Fuchs Comtrol, Inc., has been a manufacturer and provider of quality networking and industrial data communication products, including Managed and Unmanaged Ethernet switches with and without fiber.

<https://currux.vision>

AI Enabled Solutions for Intelligent Transport Systems and Infrastructure.

<https://ecamsecure.garda.com>

Your challenges, our solutions. ECAMSECURE adapts advanced technology and expertise to meet your most urgent security needs.

<https://www.editraffic.com>

The EDI array of products including signal monitors, vehicle detectors, power supplies, flashers, load switches, and other vital infrastructure devices enables transportation professionals to integrate, automate, and manage traffic highways and intersections easily, efficiently and safely.

an EnerSys company <https://www.alpha.com>

Alpha provides the broadband and renewable energy industries with the most technologically advanced and cost-effective powering solutions available.

<http://www.freymfgcorp.com>

Frey Manufacturing Corp. is committed to providing the best traffic signal mounting equipment in the industry. Our products are proudly manufactured in the USA and have a long history of reliability for each designated use.

<https://www.gecurrent.com/outdoor-lighting/transportation>

GE Current provides state-of-the-art LED solutions.

<https://www.dymec.com>

Industrial Ethernet Products That Provide Savings, Safety, and Security.

<https://www.comnet.net>

ComNet is a manufacturer of audio, video, data and Ethernet communication products.

<https://holophane.acuitybrands.com>

Holophane provides industry-leading lighting products and solutions.

<https://houston-radar.com>

Houston Radar designs and manufactures 24Ghz K-Band radars for speed measurement, presence detection, ranging and traffic data collection.

<https://www.intuicom.com>

Intuicom is a leader in providing secure, reliable, and cost effective ruggedized wireless solutions.

<https://www.mobotrex.com>

Mobility and Traffic Experts manufacturer high quality MADE in USA Signal cabinets from NEMA to Caltrans and Aluminum or Poly traffic signal heads.

<https://www.orangetraffic.com>

Blank out Signs, No left turns, No Right turns, Icy Road, and many other options.

<http://www.patriotdetection.com>

Loops and Traffic Systems- ready for tomorrow's market.

Innovation, Quality & Service

<https://www.pelcoinc.com>

Leading the world in traffic signal hardware.

<https://www.skybracket.com>

High quality mounting brackets for the traffic signal, camera, and sign industry.

<https://snowproofsignals.com>

Providing better protection against stop light snow build-up

<https://www.yunextraffic.com/global>

A global leader in intelligent traffic systems, offering the broadest end-to-end portfolio of solutions for adaptive traffic control and management, highway and tunnel automation, and intelligent solutions for V2X and tolling systems.

<https://www.valmont.com>

Whether it's sign or traffic structures, lighting, noise control or safety components for roadways or mass transit, Valmont can help. Valmont works to meet the needs of today while innovating for the future.

TEMPLE EDGE-LIT  
Internally-Illuminated LED Signs
